Some Food for Thought

Let's face it; there are a lot of ways your bird feeding dollars can be wasted.

Squirrels are sure to put a dent in your budget as they devour everything in sight, not to mention the starlings and pigeons that can dominate your feeders to the exclusion of the birds you really want to attract.

Feeding a poor quality blend of bird seed from the grocery or hardware store can also be a waste of money as most of the undesirable filler seeds just end up rotting on the ground under the bird feeder.

We deal with these scenarios all the time and we have the right bird foods, feeders and expert advice that will help you get the biggest bang for your bird feeding buck!

Our quality bird foods target the specific birds you want to attract and discourage the birds you don't. We have exclusionary feeders and accessories that can prevent those domineering squirrels, starlings and other nuisance critters from eating you out of house and home.

And you will not find a better value in bird seed than our quality WBU Seed Blends. With our regionally selected formulas, fresh quality ingredients and no filler seeds, you can rest assured that you will not be wasting any of your money on worthless, uneaten seed.

We will also share lots of expert advice about setting up and operating your bird feeding area in the most efficient and economical ways possible.

Give it some thought...if you are ready to take action, we are here to help you get more birds for your bird feeding buck!

How to Maximize Your Bird Feeding Dollars

New WBU No-Mess NM Blend

Make the most of your bird feeding funds with the foods that birds prefer. You can also attract and feed the birds you want; while deterring starlings, pigeons and squirrels that would otherwise dominate a feeder.

Quality Blends = A Better Value
Each of our blends is selected to meet the regional and seasonal needs of our birds. Combine that with no shells and no fillers and you get the biggest bang for your bird feeding buck.

Our unique New No-Mess NM Blend bird seed with no millet, pound-for-pound, is a better value. With its sunflower chips, tree nuts and shelled peanuts, you do not pay for the weight and volume of shells or undesirable ingredients. The birds eat everything. No-Mess NM Blend works great in hopper, tube and tray feeders and can be placed near flower beds, patios and decks.

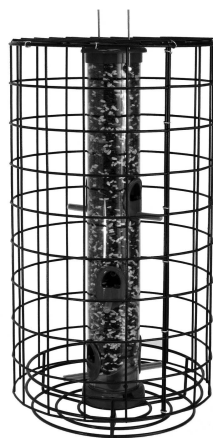

WBU Fundamental Feeder

Keep Squirrels Off
Hang a WBU Fundamental Feeder to keep squirrels from eating your bird food, crowding your feeders and chasing away the birds you want to see most. All your songbirds will gladly come to this feeder. Try our No Mess NM Blend or Chickadee Chew in the Fundamental Feeder.

On-Guard™ Protection
Guard your bird food with an On-Guard™ cage for your feeders. The wire mesh is the right size to deny starlings, pigeons and squirrels access to the precious bird food. Smaller birds are able to fly in through the mesh and eat, even Downy Woodpeckers. We carry cages for seed tube, peanut feeders and suet feeders.

Exclusionary Feeders
Protect your seed from larger birds and squirrels. Our Eliminator™ feeder has a unique technology that closes the seed ports when there is too much weight on the perch ring. When a larger, heavier bird or too many birds land on the perch ring, their weight closes the seed ports. The Eliminator's unique technology allows you to set the sensitivity level to close when one or more starlings land to feed.

On-Guard Cages protect bird food

Got Rain? Protect Your Birdfood

WBU Weather Guard

Our WBU Weather Guard slides onto any WBU brand tube feeder, including seed feeders, peanut feeders and finch feeders. It protects the birds and the food from rain, snow and ice. We have many other models and sizes of plastic and metal weather guards to choose from.

from \$21.99

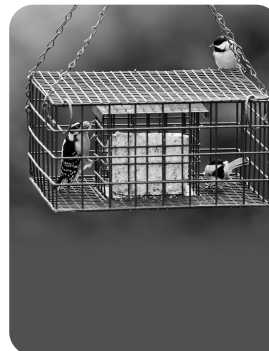

Great Solutions for Your Backyard

Feeder Fresh

Feeder Fresh is a water absorptive crystal, which is safe for the birds. It helps keep your feeders dry, healthy and mold-free. Fights rain, condensation, and humidity to keep your "feeder fresh". Fantastic solution for our wet Northwest weather. Healthy for the birds and easy for you!

Three sizes: \$3.99, \$9.99 and \$14.99

Starling-resistant Feeders

We have a variety of feeders designed to keep Starlings and other large birds from reaching your bird food. Ask us about the best solution for your bird feeding setup.

*Now thru March 18th. Not valid with other offers.

20% OFF* SAVE \$9.20 on the feeder shown

Bark Butter Feeder - FREE with Purchase

This little feeder is great for attracting birds with Jim's Birdacious® Bark Butter®, the treat that has attracted more than 100 different species of birds. Buy 2 tubs Bark Butter and receive a FREE Bark Butter Feeder. It is easy to use and hang.

*Now thru March 18th. Not valid with other offers.

Try Our NEW Suet Nuggets with Calcium

Jim's Birdacious Bark Butter Bits

Jim's Birdacious® Bark Butter® Bits are bite-sized nuggets made of an exclusive recipe of rendered beef suet, peanut oil, roasted peanuts, corn, oats and calcium carbonate.

Birds like the new formula better than any other nuggets we have ever had. Can be put alone in virtually any feeder including peanut feeders. Or you can simply mix them with seed blends.

on SALE til March 18th
